RE PDC #150082

With respect to the allegations attested to by Terry Parker, Alyssa Duarte and Mike Curtis, each of the sworn complaints are baseless on their face and should be closed as unfounded. The evidence they provided, a video which claims to show me using county facilities, shows nothing of the kind. What the video actually shows is me speaking at my kitchen table, using my personal computer, wearing my personal clothing, with a plain blue kitchen wall as the backdrop. Nothing in the video falls under the definition of county or public facilities. The company who made the video apparently created a banner which was located in the bottom left edge of the frame. This consisted of my name and title, in block letters, and the image of our badge. This image is available on nearly all social media platforms and most news platforms in the Pacific Northwest. The banner clearly and plainly does not fall under the definition of public or county facilities.

Given that the three complainants provided sworn attestments which are baseless and defamis, each should be sanctioned for providing false reports to a government agency, a violation of Washington State Law.

Sheriff Clay Myers
