Dear Ms. Mercier,

Thank you for the opportunity to respond to the complaint regarding Stand for Children Washington PAC Sponsored by Stand for Children, Inc. (PDC Case #188260).

We have reviewed the allegations and provide the following response:

Late Reporting

We acknowledge that a report referenced in the complaint was filed late in March 2026. We regret this error and take our reporting obligations seriously. Following this incident, we provided additional training to the staff member responsible for filing to ensure accurate and timely reporting moving forward. We have also reinforced internal review processes to support compliance with all filing deadlines.

Subvendor Disclosure

We also acknowledge the concern regarding subvendor reporting for the expense labeled "WA PAC EXPENSES." We have amended the relevant report to include the required subvendor details, including the individual associated with those payroll-related expenditures, in accordance with PDC guidance. We have also updated our internal review process to ensure these entries correctly report subvendor details in the future.

We appreciate the Commission's guidance and have taken steps to strengthen our compliance processes to prevent similar issues in the future.

Please let us know if any additional information is needed.

Sincerely,

Ryan Brown

Regulatory Compliance Specialist
