

Respondent Name
Lori Zoller
Complainant Name
Rick Esacson
Complaint Description
Commissioner Zoller has in fact used government issued business cards as well as government email for the purposes of furthering her campaign for re-election. As a government official this is a clear violation of RCW 29B.45.010 which as you know prohibits use of public office or agency facilities in campaigns. When looking at her campaign information on PCD site this is not something that she would admit to, and I believe causes an undue advantage. Combined with previous sanctions from the PDC would show a consistent disregard to the rules that govern these candidates. As the election is coming up soon I ask that you look into this post haste. Thanks you for your time. Rick Esacson Sorry about that. I have attached images showing Commissioner Zoller using county provided and paid for business cards along side campaign material. Also, an image of her county provided email for campaign purposes. I sent a few pictures and hope this helps. Thanks for taking the time to look. Rick Esacson Additional information. You got my email with the evidence and I re-read it and realized oops the flyer has her county built profile on the county site and not an email.
What impact does the alleged violation(s) have on the public?
Trust and safety, as a member of the public and previous candidate years ago, the last thing I want for my community is an official who attempts to cheat, lie, and make a mockery of the system.
List of attached evidence or contact information where evidence may be found
Evidence is available through Zoller herself.
List of potential witnesses with contact information to reach them
I do not have a list of witnesses, however a PDC check of email server will suffice of all evidence that is needed.
Certification (Complainant)
I certify (or declare) under penalty of perjury under the laws of the State of Washington that information provided with this complaint is true and correct to the best of my knowledge and belief.
