Robert Bruce Brown replied Wed, 4 Nov 2026
Hello PDC,
I'm the fairly new treasurer for CCRCC and was surprised to learn our C-4 was wrong yesterday morning (Nov 3). I then did a lot of research and reading and realized we did fail on two details regarding the mass mailing we paid for. I learned we need to show debt to the vendor in that case, and we need to file the C-6 very timely for certain mailings. I had no idea such was needed at all based on my previous training and research on doing the treasurer work as long as I was paying debts within a week of the invoice and reporting expenses on the C-4 using the dates transactions show up on the bank statement.
So I have yesterday and this morning submitted the C-6 and amended C-4 to report what I think is past due for this mailing activity. Please review.
Regarding the complaint, the vendor took care of both the printing and mailing work. The mailing hit the public Oct 17. We rec'd the invoice on Oct 21. I mailed the check on Oct 27. I saw it cleared on Oct 30.
thank you for your help,
- Robert Brown

Hello PDC
Regarding the mail permit comment in the complaint, CCRCC was not told or implied in any manner at any time by the professional mailer (and confirmed by the invoice) that CCRCC was not charged less than a fair market value for any service the vendor provided. To the best of our current information, short of researching USPS rules as applied by the vendor, we, CCRCC, see no in-kind contribution was made there.
thank you for your reviewing my recent C-6 and C-4 filings hopefully properly addressing the concerns within ORCA,
- Robert Brown / CCRCC treasurer
